EXTEVOMT4002R

SIFGUN EVOLUTION 400AMP 2M ROBOT

SUMMARY

The SifGUN Evolution fume extraction MIGR torch is an innovative welding torch with integrated extraction at the nozzle. With the extraction optimally located near to the weld pool, the fumes coming from the welding process are extracted immediately. As a result, the user's exposure to welding fume is reduced by up to 95%.

TARGET APPLICATIONS

FURTHER INFORMATION

The welding torch is delivered 'ready to use' and only needs connecting to a welding machine and extraction unit.

The SifGUN Evolution fume extraction torch is available in 150amp, 250amp and 350amp air-cooled hand-held versions and a 500amp water-cooled version. All with 4 metre cable lengths as standard, 5 and 6 metre length cables available upon request. A robotic version is available in 380A for automated applications.
